

Moresource Inc.

OWNER - KAT CUNNINGHAM

More than 110,000 hours – that’s how many Missouri businesses have saved over the past 15 years, thanks to Moresource Inc. Currently, about 3,000 professionals in more than 200 companies get assistance with payroll, human resources, benefits and benefits administration.

The fact is, running a business is a challenge that requires lots of hard work. You must have a clear vision of the product you want to make or the service you want to provide. And running a business requires an enormous expenditure of time just to keep up with basic administrative chores such as payroll, insurance, employee benefits, training and bookkeeping.

“Many business owners say that before they started utilizing Moresource, they didn’t realize how much of their day was spent on payroll, employee-related matters and the mountains of employee paperwork,” said Moresource founder and president Kat Cunningham. “The task can be overwhelming.”

But when a business becomes a Moresource Inc. client, Cunningham takes over most of those activities.

“You turn your payroll, human resources, benefits administration and insurance needs over to us,” she said. “We’ll handle the tax filings, paperwork, provide training seminars and more.”

ADVANTAGES OF USING MORESOURCE

This outsourcing arrangement offers companies many advantages, Cunningham said.

“By letting us administer your employee responsibilities, you greatly reduce your own employer liabilities. You also benefit from Moresource’s economies of scale. This will

allow your business to keep a sharper focus on your bottom line — producing a profit,” she said.

The benefits include:

- ◆ Tighter control of capital costs
- ◆ Increased efficiency
- ◆ Reduced labor costs
- ◆ Quicker starts for new projects
- ◆ Sharper focus on core business
- ◆ Reduced risk

There are other advantages to letting Moresource Inc. handle your employee administration needs.

“You don’t pay benefits to Moresource,” Cunningham said. “We don’t take vacation days or sick days. We don’t mind working late.

“Most importantly, with Moresource, you’ll get peace of mind knowing that you won’t have to pay fines or penalties for not getting something right. And you will save time, which we all know is money.”

GETTING STARTED

Moresource’s services are completely customizable, and customers can change these services at any time. Outsourcing all services costs less than hiring one full-time person.

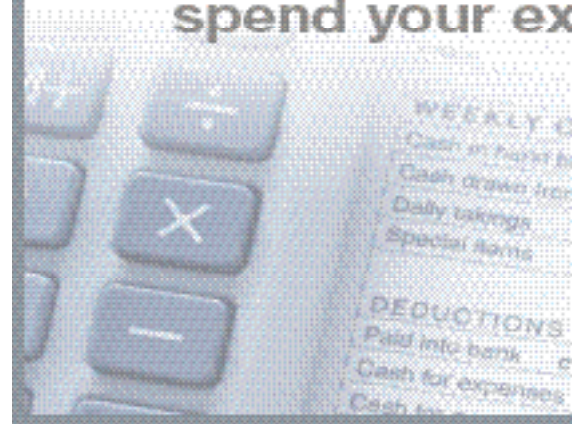

If you would like more information or have questions about what Moresource can do for your business, just call (800) 495-5678 or 443-1234. You can also visit Moresource online at www.moresource-inc.com or drop by our company headquarters at 401 Vandiver Drive in Columbia.
